CAUTIONARY STATEMENT

ON FORWARD-LOOKING INFORMATION

This presentation contains “forward-looking statements” within the meaning of applicable Canadian securities regulations. All statements other than statements of historical fact herein, including, without limitation, statements regarding exploration plans and other future plans and objectives, are forward-looking statements that involve various risks and uncertainties. There can be no assurance that such statements will prove to be accurate and future events and actual results could differ materially from those anticipated in such statements. Important factors that could cause actual results to differ materially from our expectations as well as a comprehensive list of risk factors are disclosed in the Company’s documents filed from time to time via SEDAR with the Canadian regulatory agencies to whose policies we are bound. Forward-looking statements are based on the estimates and opinions of management on the date the statements are made, and we do not undertake any obligation to update forward-looking statements should conditions or our estimates change, other than as required by law and readers are further advised not to place undue reliance on forward-looking statements. Although the Company has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking statements, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that such statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements. The Company does not undertake to update any forward-looking statements that are contained herein, except in accordance with applicable securities laws.

The technical information in this presentation on the Porter and Willoughby Project has been approved by Andrew Hamilton, P.Geo., a Qualified Person of StrikePoint Gold as defined by NI43-101. The technical information on the Cuprite Project has been approved by Michael G. Allen, P. Geo., a Qualified Person of StrikePoint Gold as defined by NI43-101.

StrikePoint is a precious metals exploration company with a focus on select prolific mining jurisdictions. The Company is made up of an exceptional team that has built tremendous shareholder value taking projects through discovery, resource development and transactions that have been rewarding for shareholders.

On January 23, 2023, StrikePoint announced an acquisition of the Cuprite Project Located in Nevada's Walker Lane.

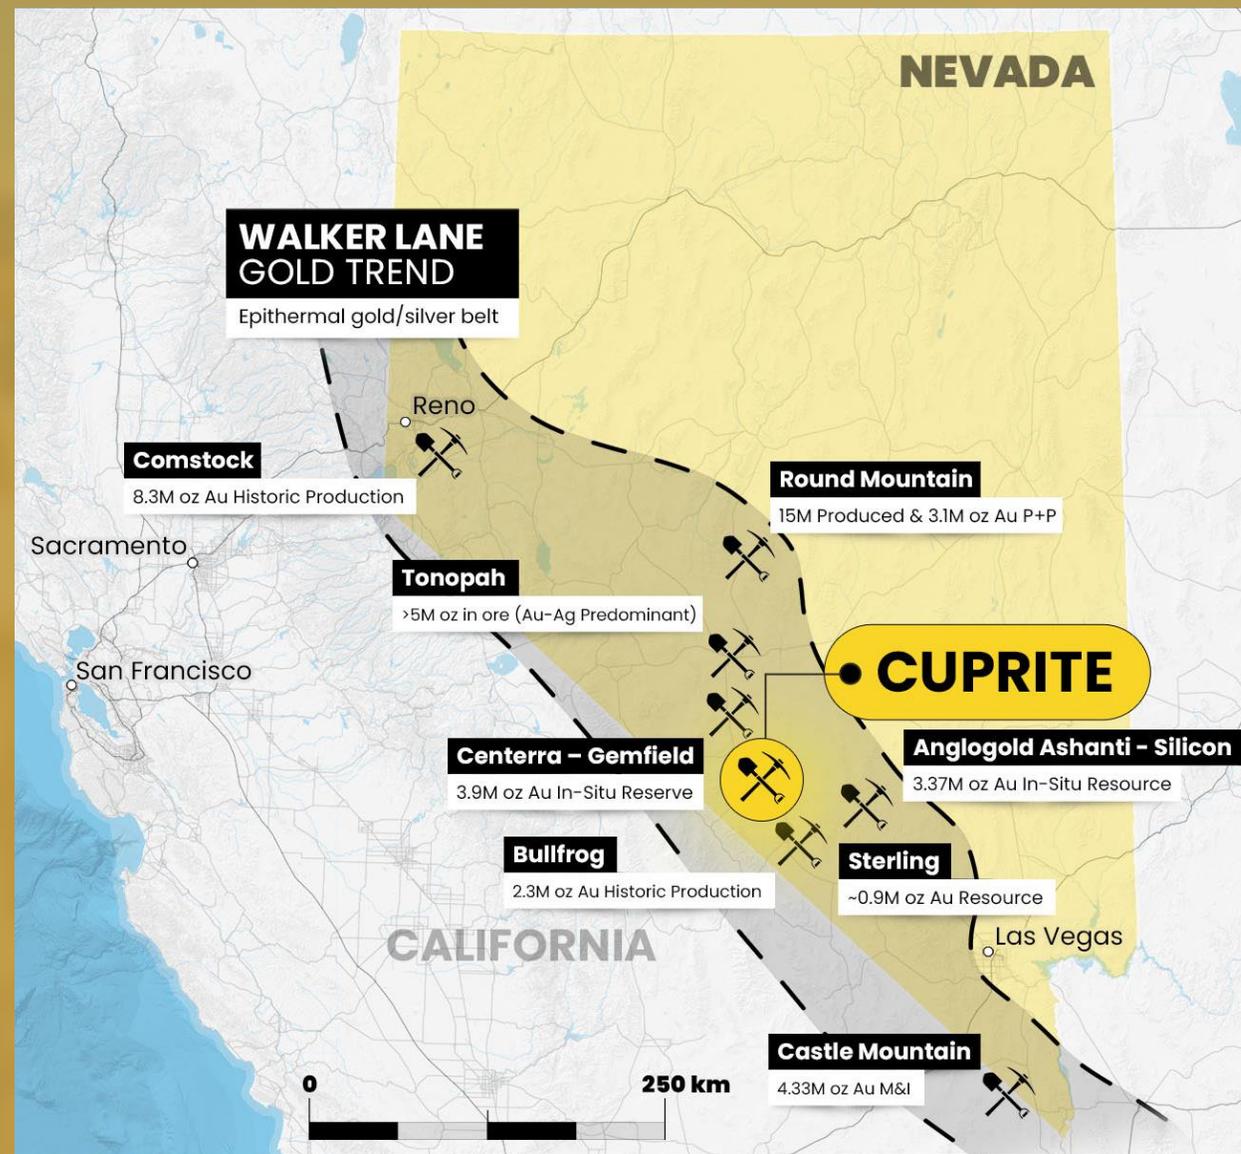

Cuprite represents a low cost – high impact entry into Nevada.

New Acquisition – Cuprite Project

Located in Nevada's Walker Lane

- Located within a 3 hours drive from Las Vegas.
- Allows for year-round efficient exploration
- Under explored trend in Nevada
- Nevada's most recent multi-million ounce discovery located 75 kilometers to the south –Anglogold's Silicon
- Cuprite acquired due to it's similarities to Silicon
- Steam heated alteration seen at Cuprite may in fact be larger than at Silicon
- Management has extensive experience in Nevada having explored the nearby Sterling Project prior to a successful corporate transaction.

*While similar geologically to Silicon, a discovery has yet to be made at Cuprite.

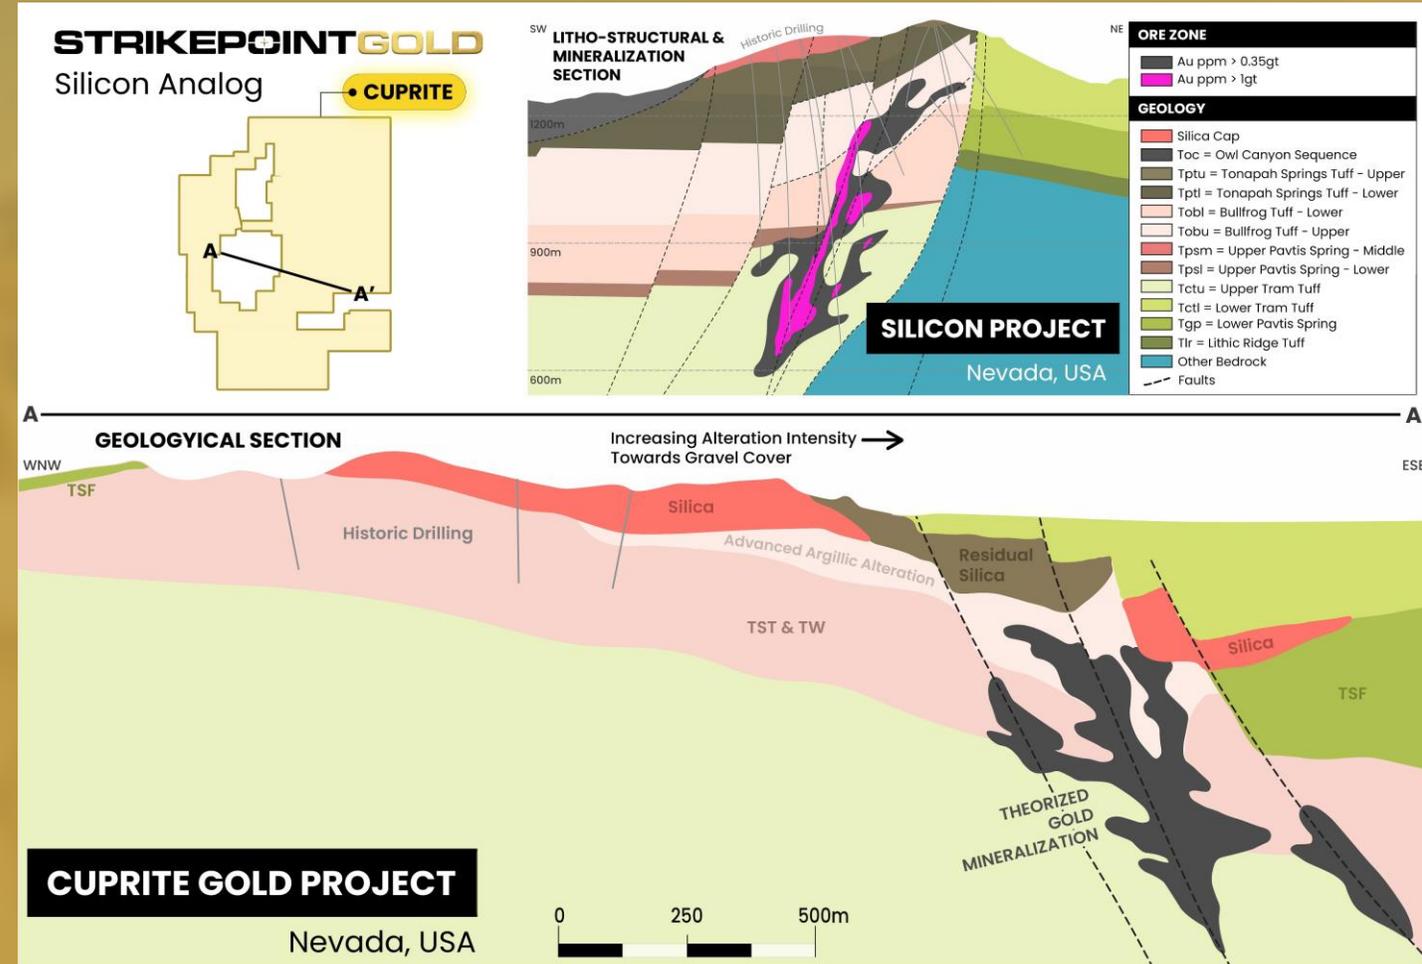

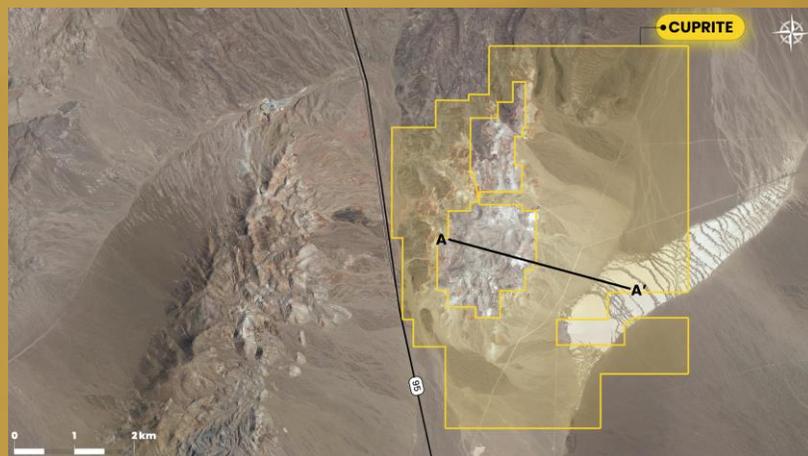

New Acquisition – Cuprite Project

Cuprite – Similarities to Silicon discovery*

- Walker Lane location
- Similar heat source for mineralization
- Multi-square kilometer alteration zones
- Extensive Silica and Mercury at surface
- Similar structural Setting

Silicon showed virtually no gold at surface, but targeted drilling at depth lead to possibly the most significant discovery in Nevada since Frontier Gold’s Long Canyon!

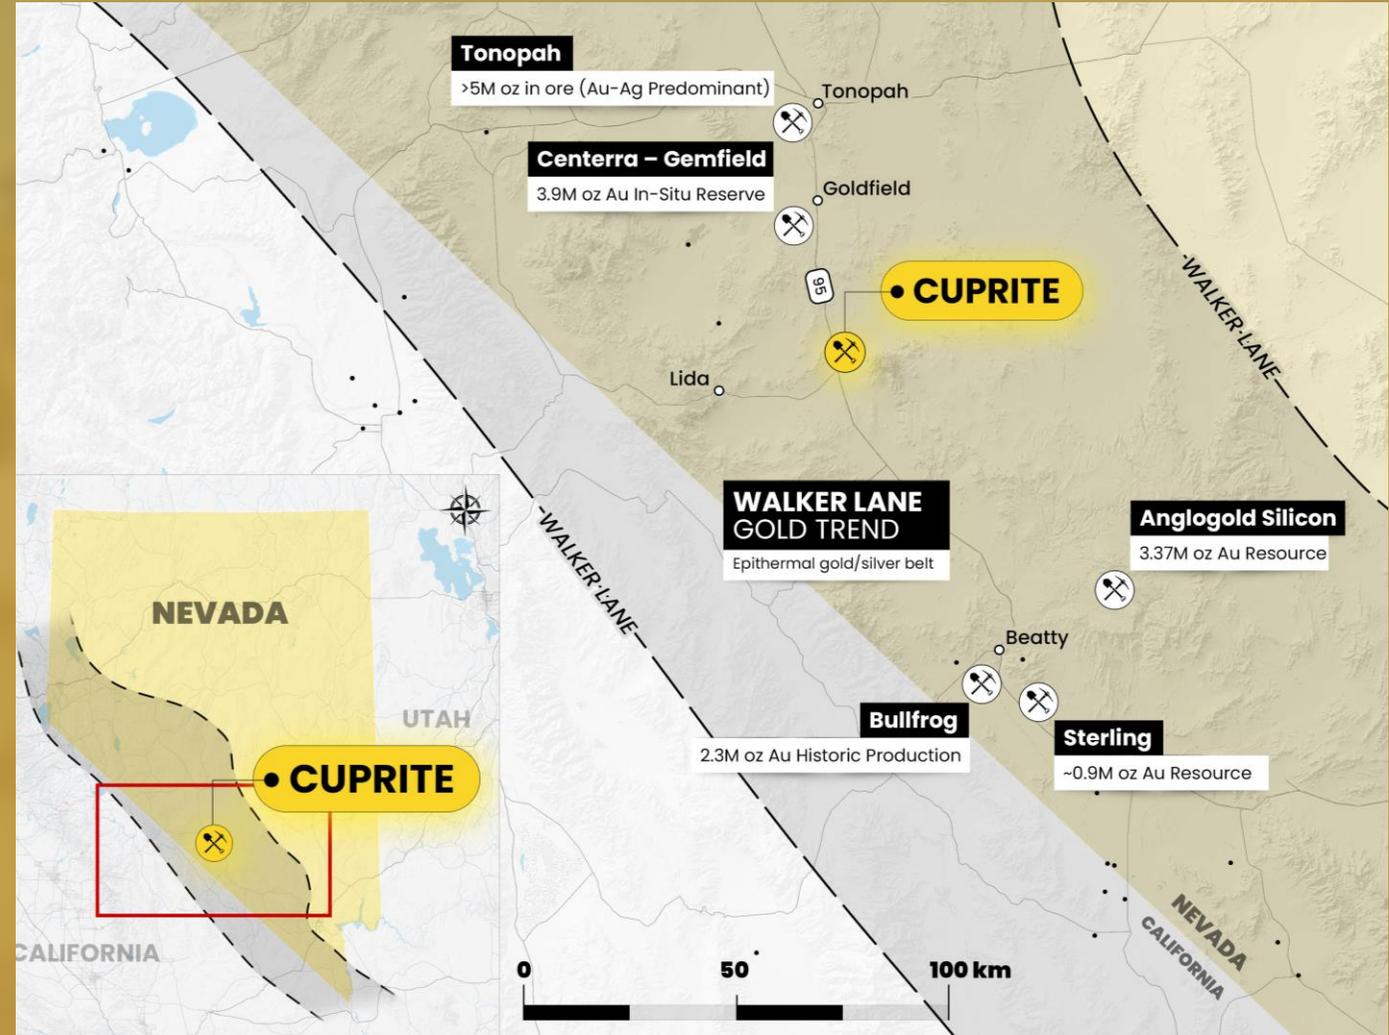

*While similar geologically to Silicon, a discovery has yet to be made at Cuprite.

Why Nevada and Why the Walker Lane?

- Nevada a Tier-1 Mining Jurisdiction
- Key management expertise and success in the Walker Lane
- 2022 Significant Corporate Activity in Walker Lane:
 - Anglogold acquires Corvus Gold \$370m
 - Anglogold announces resource at Silicon Project (3.37Moz Au)*
 - Centerra Acquires Gemfield Project for \$206.5m
 - Anglogold acquires Sterling Project for up to \$200m

New significant discoveries continue to be made in Nevada

*While similar geologically to Silicon, a discovery has yet to be made at Cuprite.

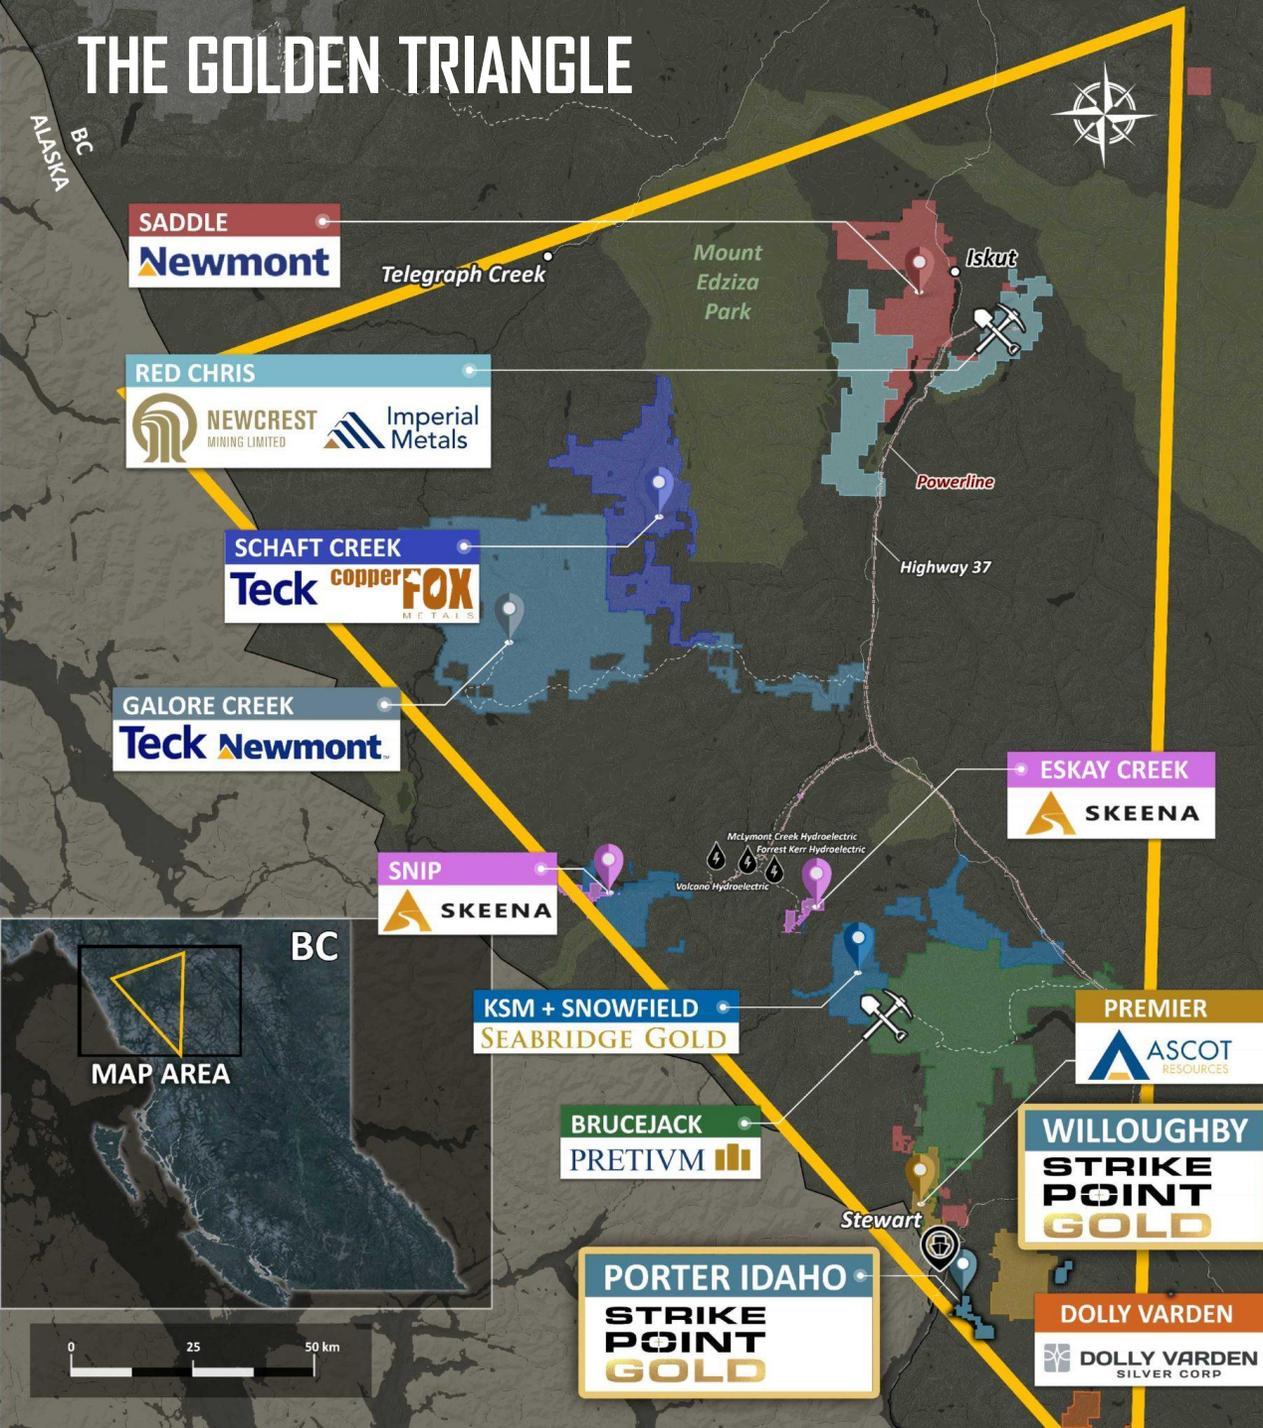

New Acquisition – Cuprite Project

Key Deal Terms:

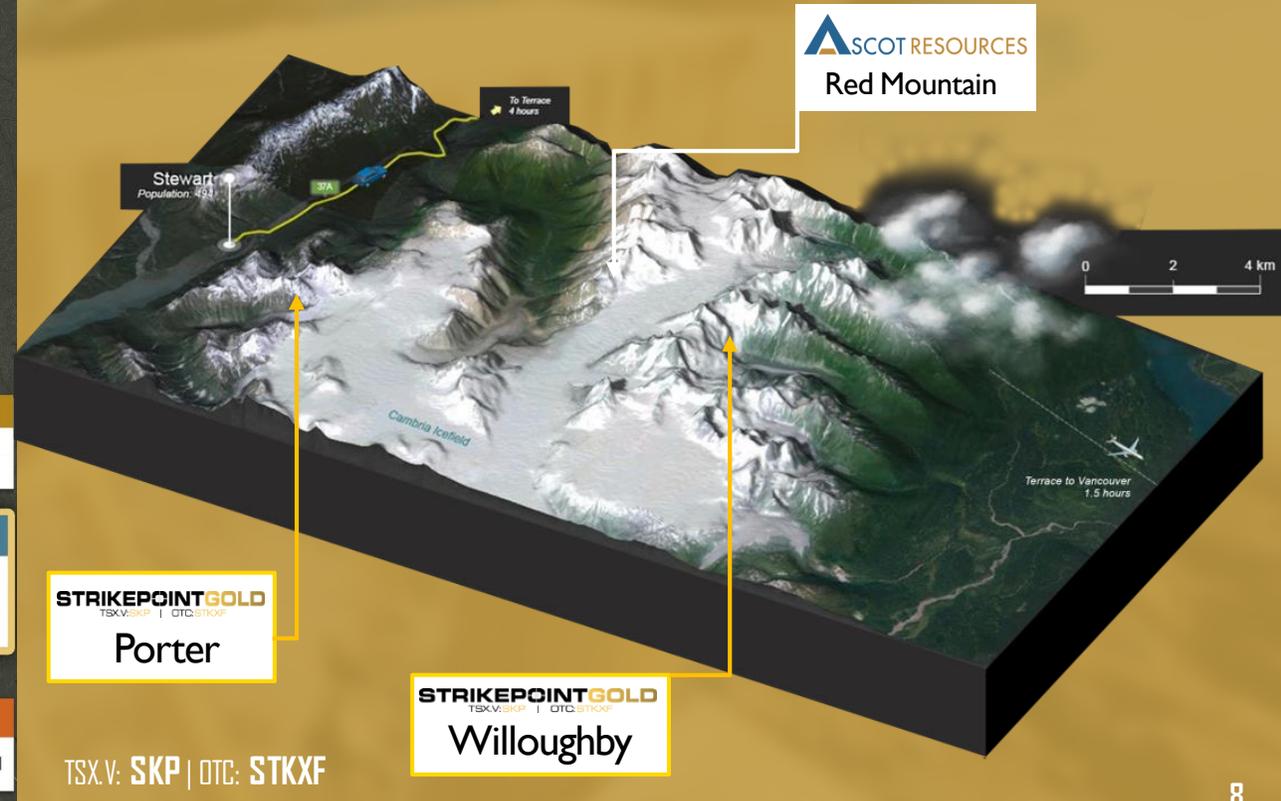

- \$C450,000 in stock of SKP (~2.5% Dilution)
- 3% NSR granted to Orogen (0.5% purchasable for US\$2,500,000)
- Partial re-imbursement of 2022/2023 Claim Fees Pro-rated to time deal close (~US\$35,000)
- 3% NSR applies to any additional claims staked within 1km AOI
- 1.5% NSR to be applied to an after acquired 3rd party claims internal to the claim package.

PORTER SILVER PROJECT

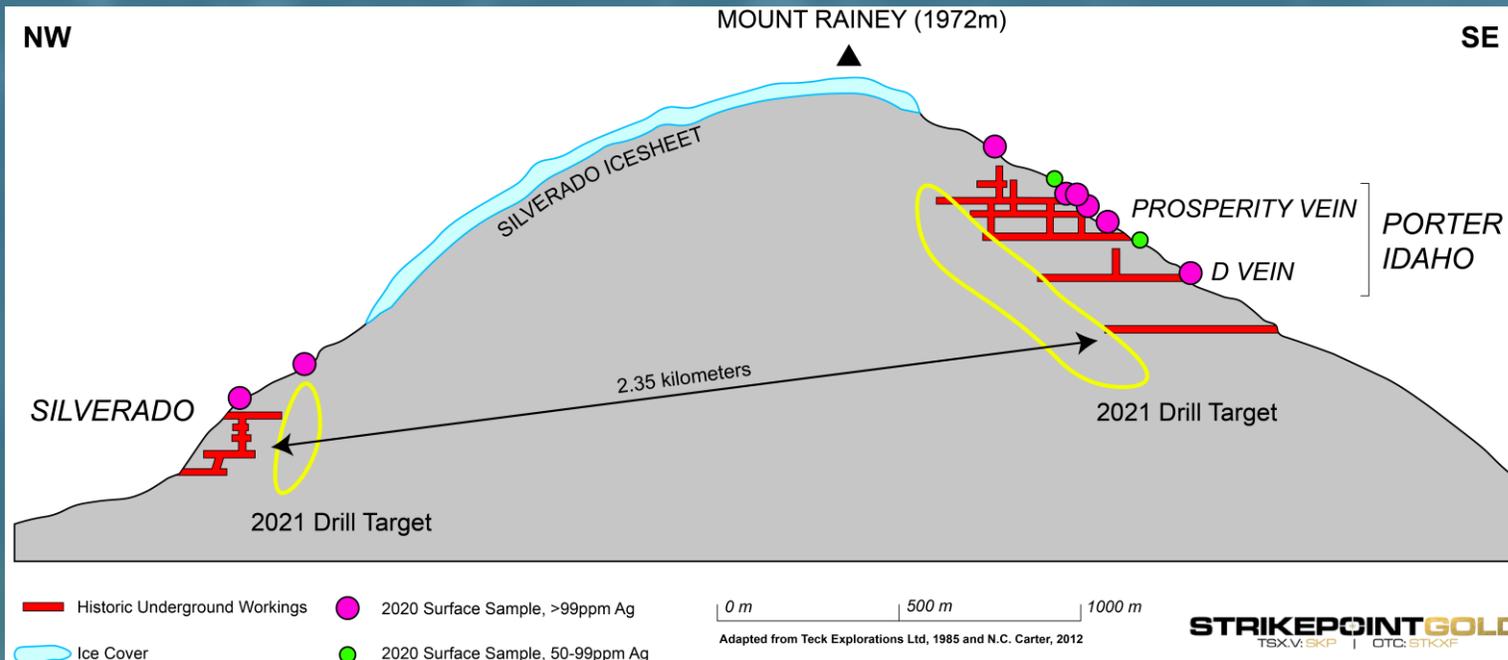

2,350 METRE UNEXPLORED AREA

2,350 metre unexplored area exists between the past producing Silverado and Porter-Prosperity mines. Veins at both sites run at a similar orientation, therefore it is hypothesized that the system may be continuous under the peak of Mount Rainey.

An NI 43-101 Technical Report completed in 2012 by Dr. Nick Carter, P.Eng. and estimated silver resources using values from Porter's Prosperity and D veins.

Porter Project: Historical Resource Estimate*

@ 170 g/t Ag cut-off		Average Grades	Contained Metal
Category	Tonnes	Ag (g/t)	Ag (oz)
Indicated	394,700	868	11,000,000
Inferred	88,900	595	1,700,000

- Past production of **2,000,000 oz** of silver at **2,542 g/t** ending in 1931 (silver only, not silver equivalent)
- Acquired from **Skeena Resources Limited** in 2019

*The Company considers this estimate as historic in accordance with NI43-101.

WILLOUGHBY GOLD SILVER PROJECT

A RICH & EXTENSIVE DATABASE

119 Historic diamond drill holes (1989 to 1996) totalling 12,302m

- **89 Surface** diamond drill holes
- **30 Underground** diamond holes
- **1,356 Surface** samples between 1989 and 2008

110 meters of underground exploration workings (1995-1996)
