The accompanying notes are an integral part of these unaudited condensed consolidated interim financial statements.

1. NATURE OF OPERATIONS AND GOING CONCERN

StrikePoint Gold Inc. (the “Company” or “StrikePoint”) is incorporated under the laws of the Province of British Columbia and listed on the TSX Venture Exchange under the ticker symbol “SKP” and on the OTCQB in the United States under the ticker symbol “STKXF”. The Company is in the exploration stage with respect to its mineral properties and based on the information available to date, the Company has not yet determined whether its mineral properties contain ore reserves. The Company’s corporate head office is located at Suite 3123 – 595 Burrard Street, PO Box 49139, Vancouver, BC, V7X 1J1. The registered address and records office of the Company is located at 1111 West Hastings, 15th Floor, Vancouver, BC, V6E 2J3.

These unaudited condensed consolidated interim financial statements have been prepared by management on the basis of accounting principles applicable to a going concern, which assumes that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations. The Company’s ability to continue as a going concern is dependent upon its ability to obtain the financing necessary to complete its exploration projects by issuance of share capital, through joint ventures, realizing future profitable production, and/or proceeds from the disposition of a property. As of March 31, 2026, the Company had an accumulated deficit of \$66,903,231 and working capital of \$1,378,971, and additional financing will be required to carry out additional exploration and development of its properties. These factors indicate the existence of material uncertainty that may cast significant doubt about the Company’s ability to continue as a going concern.

These unaudited condensed consolidated interim financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue in existence.

2. BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICY INFORMATION

These unaudited condensed consolidated interim financial statements, including comparatives, have been prepared in accordance with IFRS Accounting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”), as applicable to interim financial reports including International Accounting Standard 34, *Interim Financial Reporting*. Therefore, these condensed consolidated interim financial statements do not include all the information and note disclosures required by IFRS for annual financial statements and should be read in conjunction with the audited annual consolidated financial statements for the year ended December 31, 2025, which have been prepared in accordance with IFRS.

The accounting policies and basis of presentation applied in the preparation of these unaudited condensed consolidated interim financial statements are consistent with those applied and disclosed in the Company’s audited annual consolidated financial statements for the year ended December 31, 2025, unless otherwise noted.

These unaudited condensed consolidated interim financial statements were approved by the Board of Directors of the Company on May 29, 2026.

2. BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICY INFORMATION - *continued***Basis of Consolidation**

The condensed consolidated interim financial statements of the Company include the accounts of its wholly-owned Canadian subsidiaries: 1391512 BC Ltd., and 1391515 BC Ltd., and its wholly-owned U.S. subsidiary Stimulant LLC (“Stimulant”), which owns the Cuprite Gold Project (“Cuprite”) in Nevada, U.S.A. In addition, the Company owns all the issued and outstanding shares of Alcmene Mining Inc. (“Alcmene”) (a Canadian incorporated holding company), which owns 100% of Hercules Gold USA, LLC (organized in the United States of America and owns the Hercules Gold Project).

These condensed consolidated interim financial statements include the accounts of the Company and entities controlled by the Company. Control is achieved with the Company is exposed to variable returns and has the ability to affect those returns through power to direct the relevant activities. Subsidiaries are fully consolidated from the date on which control is transferred to the Company. Subsidiaries will be de-consolidated from the date that control ceases. All transactions and balances between the Company and its subsidiaries are eliminated on consolidation. Profit or loss and other loss and other comprehensive income of subsidiaries acquired or disposed of during the period are recognized from the effective date of acquisition, or up to the effective date of disposal, as applicable.

New Standards and Interpretations Adopted

In May 2024, the IASB issued amendments to IFRS 9 and 7 to clarify the recognition or derecognition of a financial asset or liability, with a new exception for some financial liabilities settled through an electronic cash transfer system. The amendments also add guidance for assessing whether a financial asset meets the sole payments of principal and interest (“SPPI”) criterion, by introducing an additional SPPI test for financial assets with contingent features that are not related directly to a change in basic lending risks or costs. In addition, the amendments will add new disclosures for certain instruments with contractual terms that can change cash flows. Lastly, the amendments will require additional disclosures for equity instruments designated at fair value through other comprehensive income. The amendments are effective for reporting periods beginning on or after January 1, 2026, with early application permitted. The amendments have been adopted by the Company and the amendments did not result in any material changes to the condensed consolidated interim financial statements.

In December 2024, the IASB issued amendments to IFRS 9 and 7 to clarify the application of the 'own-use' exemption and provide guidance on hedge accounting for companies that hedge their purchase or sales of electricity using renewable power purchase agreements. The amendments also introduce new disclosure requirements. The amendments are effective for reporting periods beginning on or after January 1, 2026. The amendments have been adopted by the Company and the amendments did not result in any material changes to the condensed consolidated interim financial statements.

New Standards Issued But Not Yet Effective

In April 2024, the IASB released IFRS 18 Presentation and Disclosure in Financial Statements. IFRS 18 will replace IAS 1 Presentation of Financial Statements. The standard amends the presentation of the statement of income by introducing a newly defined 'operating profit' subtotal and a requirement for income and expenses to be allocated between three new distinct categories based on a company's main business activities, which are Operating, Financing and Investing. In addition, organizations will need to disclose certain 'non-GAAP' measures known as management defined performance measures. The standard will be effective from January 1, 2027 with early adoption permitted and requires retrospective application. The Company is assessing the impact of adoption of this amendment on its condensed consolidated interim financial statements.

3. SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of financial statements in conformity with IFRS requires management to make accounting policy judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates as the estimation process is inherently uncertain. Estimates are reviewed on an ongoing basis based on historical experience and other factors that are considered relevant under the circumstances. Revisions to estimates and the resulting effects on the carrying amounts of the Company's assets and liabilities are accounted for prospectively. The critical accounting policy judgments and estimates applied in the preparation of the Company's unaudited condensed consolidated interim financial statements are consistent with those applied and disclosed in Notes 2 and 3 of the Company's audited consolidated financial statements for the years ended December 31, 2025 and 2024.

4. EXPLORATION AND EVALUATION PROPERTIES

The following disclosure provides a summary of the Company's projects and a table which provides a breakdown of the Company's exploration and evaluation costs for the three months ended March 31, 2026 and 2025.

Hercules Gold Project

The Company owns a 100% interest in the Hercules Gold Project ("Hercules") consisting of various unpatented and patented mining claims in Nevada, United States of America. Hercules is a prospective gold exploration project of the Company. Certain claims have reserved royalties to a maximum of 3% with associated buy-down provisions. A portion of the claims are under option with an annual payment of US \$50,000 per year to be made until the year 2032.

In addition to the above, in February 2026, the Company entered into a definitive agreement to acquire various unpatented mining claims from Newmont Mining Corporation ("Newmont"). The claims are an inlier within the Company's existing Hercules Gold Project, and the acquisition consolidates the area further, allowing for expanded exploration at Hercules.

The agreement with Newmont consists of the following payments to be made by the Company:

- US \$25,000 due on signing (paid);
- US \$50,000 due 12 months after the execution of the agreement;
- US \$75,000 due 24 months after the execution of the agreement; and
- US \$150,000 due 36 months after the execution of the agreement.

As well as the following milestone payments:

- US \$1,500,000 due within 120 days completion of a Preliminary Economic Assessment on a 250,000 ounce Gold Equivalent deposit contained within the acquired claims; and
- US \$3,500,000 within 120 days of commercial production on the property.

The Company also granted Newmont a 1.5% net smelter return royalty, subject to a buydown to 1.0% for US \$1,000,000 and a right of first refusal on the remainder.

As at March 31, 2026, the Company has a reclamation bond with the Nevada Bureau of Land Management ("BLM") totaling \$160,319 in value on Hercules (December 31, 2025 - \$157,640), in accordance with keeping certain exploration permits on the project in good standing.

4. EXPLORATION AND EVALUATION PROPERTIES - *continued***Hercules Gold Project - *continued***

During the three months ended March 31, 2026, the Company expensed a total of \$9,739 in reclamation costs (three months ended March 31, 2025 - \$95,847), associated with exploration work conducted at Hercules during the period. The total estimated reclamation cost accrued as at March 31, 2026 was \$178,336 (December 31, 2025 - \$165,623), which is included in accounts payable and accrued liabilities.

Cuprite Gold Project

The Company holds a 100% interest in the Cuprite Gold Project (“Cuprite”), located in Nevada and acquired from Orogen Royalties Inc. (“Orogen”). Orogen was granted a 3% net smelter return royalty (“NSR”), 0.5% of the NSR can be purchased by the Company for US \$2,500,000. Orogen also retains a 1.5% NSR on any after-acquired internal claims held by third parties. Orogen holds a one-kilometer area of interest around Cuprite and additional claims staked within the area of interest will be subject to the 3% NSR (which is also subject to the 0.5% buy-back provision noted above).

As at March 31, 2026, the Company posted a reclamation bond with the Nevada BLM totaling \$27,878 on Cuprite (December 31, 2025 - \$27,412). The total estimated reclamation costs accrued as at March 31, 2026 for Cuprite is \$11,848 (December 31, 2025 - \$11,650), which is included in accounts payable and accrued liabilities.

Willoughby Property – British Columbia, Canada

The Company holds a 100% interest in the Willoughby Property (“Willoughby”), located in north-western British Columbia. In March 2019, the Company posted a reclamation bond payment in the amount of \$39,000. Willoughby is subject to a 1.5% NSR, of which 0.5% can be purchased for a cash payment of \$1,000,000. As at March 31, 2026 and December 31, 2025, accounts payable and accrued liabilities includes reclamation cost estimates at Willoughby totalling \$218,000.

Porter Property – British Columbia, Canada

In May 2025, the Company sold the Porter - Idaho Property (“Porter”), including the Handsome Jack, Big Bada, and Boom properties, located near Stewart, British Columbia to Dolly Varden Silver Corp. (“Dolly Varden”). Pursuant to the terms of the sale, Dolly Varden issued 295,699 of its common shares to the Company valued at \$1,105,914. The Company transferred the rights of the reclamation bond on Porter (totalling \$31,000) to Dolly Varden and reversed associated reclamation accruals of \$31,900 against proceeds from the sale of Porter. During the year ended December 31, 2025, the Company sold all 295,699 common shares of Dolly Varden for net proceeds of \$1,465,103, resulting in a gain on the sale of marketable securities of \$359,189.

4. EXPLORATION AND EVALUATION PROPERTIES - continued

5. ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

As of:	March 31, 2026	December 31, 2025
Accounts payable	\$ 574,941	\$ 32,680
Accrued liabilities	465,685	477,778
Total	\$ 1,040,626	\$ 510,458

Included in accrued liabilities is \$218,000 in estimated costs associated with removal of pads and temporary structures at Willoughby (Note 4) as at March 31, 2026 and December 31, 2025. In addition, reclamation accruals for exploration related activities are included in accrued liabilities for Cuprite and Hercules totalling \$190,184 as at March 31, 2026 (December 31, 2025 - \$177,273).

6. SHARE CAPITAL
Authorized Share Capital

As of March 31, 2026, the authorized share capital of the Company is an unlimited number of common shares without par value. All issued shares, consisting only of common shares, are fully paid.

6. SHARE CAPITAL - continued
Recent Share Capital Issuances

During the year ended December 31, 2025, the Company completed a non-brokered private placement under the Listed Issuer Financing Exemption for gross proceeds of \$3,119,619. The private placement consisted of 20,797,460 units of the Company at a price of \$0.15 per unit. Each unit was comprised of one common share and one share purchase warrant, with each share purchase warrant exercisable into one common share of the Company at an exercise price of \$0.30 for a period of twenty-four (24) months from closing. The residual value of the warrants in this private placement totaled \$103,987. In connection with the closing of the private placement, the Company paid \$226,456 in cash for finder's fees, regulatory, legal and administration fees and issued a total of 1,076,110 broker warrants (exercisable at \$0.30 for a period of 24 months from the date of issuance). The broker warrants were determined to have a fair value of \$73,803 based on the Black-Scholes option pricing model, assuming an expected life of 2 years, expected dividend yield of 0%, a risk-free interest rate of 2.47%, an expected volatility of 122.45%, and a closing stock price of \$0.145.

Stock Options

The shareholders of the Company have approved the adoption of a 10% rolling Stock Option Plan (the "Plan"). The Plan is administered by the Company's Board of Directors and subject to the applicable laws and regulatory requirements. The maximum numbers of shares that may be reserved for issuance under the Plan is 10% of the issued common shares of the Company at any time and can be granted with a term not exceeding ten (10) years from the date of grant. The vesting period for all options is at the discretion of the directors and the exercise price will, in no event, be less than market price for the common shares (as defined by the policies of the TSX Venture Exchange) at the date of grant.

A summary of the Company's stock option activities for the three months ended March 31, 2026 and the year ended December 31, 2025 is presented below.

	<u>Three Months Ended March 31, 2026</u>		<u>Year Ended December 31, 2025</u>

7. RELATED PARTY TRANSACTIONS

In accordance with IAS 24, key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the Company, directly or indirectly. The Company has identified its members of the Board, its Chief Executive Officer ("CEO"), its Chief Financial Officer ("CFO"), and its former VP Exploration as its key management personnel. The various fees and compensation paid to directors and key management personnel identified are presented below.

	Three Months Ended March 31,	
	2026	2025
Salaries and wages paid to CEO ²	\$ 62,500	\$ 62,500
Salaries and wages paid to CFO ²	31,250	31,250
Fees paid or accrued to Executive Chairman ^{1,2}	45,000	45,000
Fees paid or accrued to a member of the Board ²	\$ 9,000	\$ 9,000

- ¹⁾ Fees paid or accrued were paid to companies controlled by individual.
²⁾ Included and expensed as part of management fees, salaries and wages.
³⁾ Included and expensed as part of share-based compensation.

As at March 31, 2026, accounts payable and accrued liabilities included \$9,000 (December 31, 2025 - \$9,434) due to related parties for outstanding fees and expense reimbursement charges.

8. SEGMENTED INFORMATION

The Company currently operates in one reportable operating segment, being the acquisition, exploration, and development of natural resource properties, which is conducted principally in Canada and the United States of America. The Company is in the exploration stage and accordingly, has no reportable segment revenues for any of the periods presented in these financial statements. All the Company's non-current assets were held in Canada with the exception of the bond reclamation deposits held for Cuprite and Hercules with the Bureau of Land Management in Nevada disclosed in Note 4.

9. FINANCIAL INSTRUMENTS AND RISK FACTORS**Fair Value**

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 – Inputs that are not based on observable market data.

The Company's financial instruments include cash, receivables (excluding value-added tax receivable), reclamation bond and accounts payable and accrued liabilities. The carrying value of these financial instruments approximates their fair value.

Risk Factors

The Company is exposed to a variety of financial instrument-related risks, including those discussed below.

a) Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company's cash and cash equivalents are held by one bank, resulting in a concentration of credit risk with the bank. To mitigate this risk, the Company holds its cash and cash equivalents at a large chartered Canadian bank with a high level of credit quality, as determined by third party rating agencies. The Company's receivables are predominately related to receivables from goods and services input tax credits (collectible from the Government of Canada), with the remaining trade receivable balance being nominal and considered to be collectible by the Company.

b) Liquidity Risk

Liquidity risk arises through the excess of financial obligations over available financial assets due at any point in time. The Company's objective in managing liquidity risk is to maintain sufficient readily available reserves to meet its liquidity requirements at any point in time. The Company achieves this by maintaining sufficient cash balances. The Company's ability to advance various projects is dependent upon its ability to raise additional funds through access to equity markets. If necessary, the Company may seek financing for capital projects or working capital needs. Such financing, if required, will depend on several unpredictable factors, which are often beyond the control of the Company. These would include the expected expenditures for exploration and acquisition of new assets, which could be curtailed should funding not be available.

9. FINANCIAL INSTRUMENTS AND RISK FACTORS - *continued***Risk Factors - *continued***c) Market Risk

Market risk consists of foreign currency exchange risk, commodity price risk and interest rate risk. The objective of market risk management is to manage and control market risk exposures within acceptable limits while maximizing returns.

i) Foreign Currency Exchange Risk

Foreign currency exchange rate risk is the risk that the fair value or future cash flows will fluctuate from changes in foreign exchange rates. Although the Company is in the exploration stage and has not yet developed commercial mineral interests, the underlying market prices in Canada for minerals are impacted by changes in the exchange rate between the Canadian and the United States Dollar. The Company's exploration and evaluation costs, as well as other general and administrative costs are denominated in both Canadian and United States Dollars. The Company has not agreed to any arrangements to hedge its currency risk. As at March 31, 2026, one U.S. Dollar closed at \$1.3939 and the average for the three months ended March 31, 2026 was \$1.3717. Based on the net exposures as of March 31, 2026 and for the three months then ended and assuming that all other variables remain constant, a 10% change in the U.S. dollar exchange rates, would not have a material impact on the statement of loss and comprehensive loss.

ii) Commodity Price Risk

Commodity price risk is the risk that the fair value of financial assets and financial liabilities or expected future cash flows will fluctuate because of changes in commodity prices. Commodity prices for minerals are impacted by world economic events that dictate the levels of supply and demand as well as the relationship between the Canadian and United States Dollars, as outlined above. As the Company has not yet developed commercial mineral interests, it is not exposed to commodity price risk currently. However, the Company is indirectly exposed to commodity price risk as it impacts the Company's access to capital and funding and potentially its ability to finance its activities.

iii) Interest Rate Risk

Interest rate risk is the risk due to variability of interest rates. The Company is exposed to interest rate risk on its interest earning bank account. The income earned from its bank account balance is subject to the movements in interest rates. The Company has cash balances and maintains no-interest bearing debt, therefore, interest rate risk is minimized.

10. COMMITMENTS

The Company is party to an office rental sub-lease for \$8,600 per month. The Company can terminate the rental arrangement by providing the landlord with a 12-month written notice at any time. Should the Company not invoke its termination clause, the minimum lease payments under the term of the lease are as follows:

- Remainder of 2026 - \$77,400
- 2027 - \$103,200
- 2028 - \$103,200
- 2029 - \$103,200
- 2030 - \$34,400

11. CAPITAL MANAGEMENT

The Company considers its capital structure to include working capital and shareholders' equity. The Company monitors its capital structure and makes adjustments in light of changes in economic conditions and risk characteristics of the underlying assets and capital markets. In order to facilitate the management of capital and the development of its mineral properties, the Company prepares annual expenditure budgets which are regularly monitored and updated as necessary.

To maintain or adjust the capital structure, the Company may issue new equity or debt financing, if available, on favorable terms, option its mineral properties for cash and/or expenditure commitments from optionees, enter joint venture arrangements, or dispose of mineral properties.

The Company's investment policy is to hold cash and term deposits in interest-bearing bank accounts and highly liquid short-term, interest-bearing investments with maturities of one year or less which can be liquidated at any time without penalties. The Company is not subject to externally imposed capital requirements. There have been no significant changes in the Company's approach to capital management during the three months ended March 31, 2026.
